

Please do not take Klove off of the air. I have a right (remember) to listen to what I want to listen to. If I am restricted by new by this new expansion proposal of LPFM, I would feel this to be an infringement upon my rights. There is nothing in my local area that I listen to, I need national broadcast to "hear" what is happening in my world and to "listen" to the music that encourages and uplifts me. I live in the mountains of Colorado where the air is thin when it comes to selection, please do not limit my selection.

Thanks
